Re: Bluewater Uranium Mine Superfund Removal Site
Prewitt, New Mexico

Dear Ms. King:

The U. S. Environmental Protection Agency is required by law to establish Administrative Records "at or near a facility at issue." This Administrative Record consists of information upon which the Agency based its selection of response action for this Superfund site.

We appreciate having the Mother Whiteside Memorial Library as the designated Administrative Record facility for the Bluewater Uranium Mine Superfund Removal Site record. The enclosed record, along with any future documents relating to the technical activities at the site, should be placed in the Library and be available for public review. The record should be treated as non-circulating reference - it should not be removed from your facility.

To ensure the receipt of the Administrative Record, I would appreciate your completion of the attached Document Transmittal Acknowledgement form. Please return this form in the enclosed self-addressed, stamped envelope.

Again, I would like to thank you for your cooperation with the U. S. EPA in serving as a Field Repository. If you have any questions or comments, please contact me at (415) 744-2297.

Sincerely,

A handwritten signature in cursive script that reads "William J. Weis, III".
